www.greendesigngroup.co.uk

Green Design Group Architects Limited provides a full architectural service from initial consultation and concept through to project completion on a wide variety of jobs. We serve both private individuals and larger corporate clients throughout the north of England and southern Scotland, operating from offices in both Cockermouth and Brampton.

We are aware that our organisation and its processes may have an impact on the environment and are committed to complying with accepted environmental practices, including the commitment to meet or exceed applicable legal and other requirements, to work towards continual improvement in our environmental management system and to minimise the creation of wastes and pollution. We will, therefore, manage our

processes, our materials and our people in order to reduce the environmental impacts associated with our work.
