

30 March 2011 Traditional Buildings – Adapting to a low carbon future conference presentations

The conference was a partnership between the Churches Trust for Cumbria, Cumbria Action for Sustainability and the Cumbrian Heritage Skills Initiative. It provided learning on the current methods, materials, research and case studies on the refurbishment of traditional buildings.

The conference was part of the NWIEP: CLASP training programme and European Social Funded Green Ways to Work project.

Conference Presentations – please click on link to view

Keynote presentation – Setting the scene – Roger Curtis, Historic Scotland
