# JS Engineering Design Ltd

JS Engineering Design Ltd. are consulting structural engineers based in Penrith, Cumbria. The company provides a structural engineering design service for buildings as follows:

- Advice and engineering design for your initial scheme and/or the detailed structural calculations, drawings and specifications.
- Inspection and reports on the structural condition of your buildings or other structures, together with recommendations for any remedial works that may be necessary.

Aim: to promote sustainable materials and techniques in building construction, and to conserve and retain existing building elements, wherever possible.

JS Engineering Design Ltd:

- Are Members of the Institution of Structural Engineers
- Are registered with Constructionline.
- Hold a Retained **Gold Award** from the Cumbria Business Environment Network.
